

CONCEPTUAL FRAMEWORK OF QMS IN MTS

Quality Policy

MTS is committed to:

1. The provision of excellent technical services that consistently meet client requirements and expectations.
2. Ensuring that our work complies with applicable statutory and regulatory requirements of our industry.
3. Continuous improvement in the manner and quality by which we deliver our services.

Vision

We will become world class Global Engineering IT Center in Engineering of EPC and/or Manufacturing.

Goal

Target

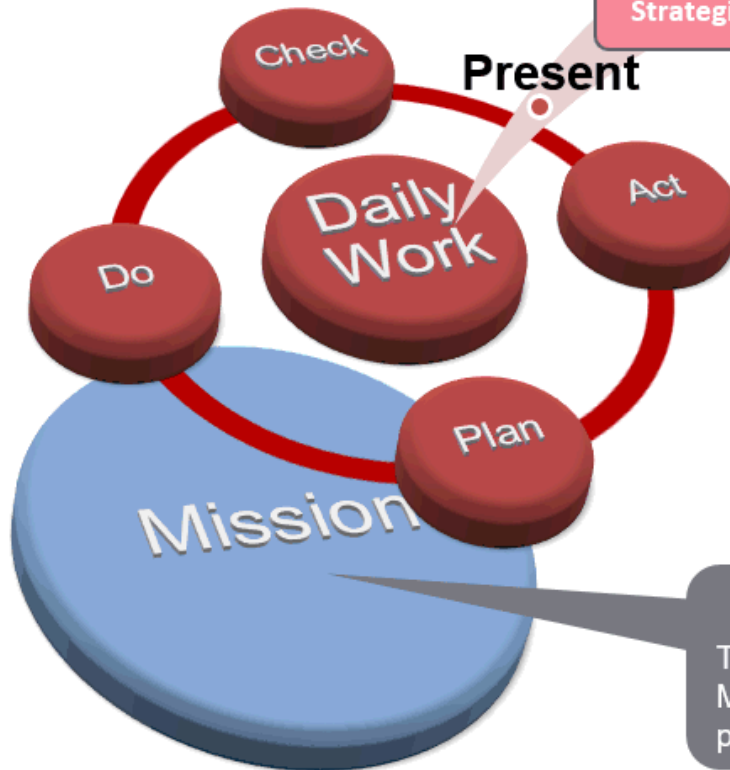

Quality Policy

Strategic Direction

Quality Objectives

- Q01.** To strengthen and improve MTS QMS by process reformation with ISO 9001:2015
- Q02.** No major failure by engineering improvement with process basis, planning, action, monitoring, analysis, evaluation and feedback
- Q03.** Expansion of work scope for current engineering capacity
- Q04.** To strengthen and improve human resource development process for alignment of work processes (improving skills and knowledge of engineering)
- Q05.** No incident for environment, safety and security issue
- Q06.** Effective risk management

Present

Mission

To provide the best engineering output continuously for the PJs of MHI & MHPS, such as EPC PJ and Manufacturing PJ, with everybody's participation in the detailed engineering and field service
