CONCEPTUAL FRAMEWORK OF QMS IN MTS

MHI POWER

Quality Policy

MTS is committed to:
1. The provision of excellent technical services that consistently meet client requirements and expectations.
2. Ensuring that our work complies with applicable statutory and regulatory requirements of our industry.
3. Continuous improvement in the manner and quality by which we deliver our services.

Quality Policy

Target

Goal

Vision

We will become world class **Global Engineering IT Center** in Engineering of EPC and/or Manufacturing.

Mission
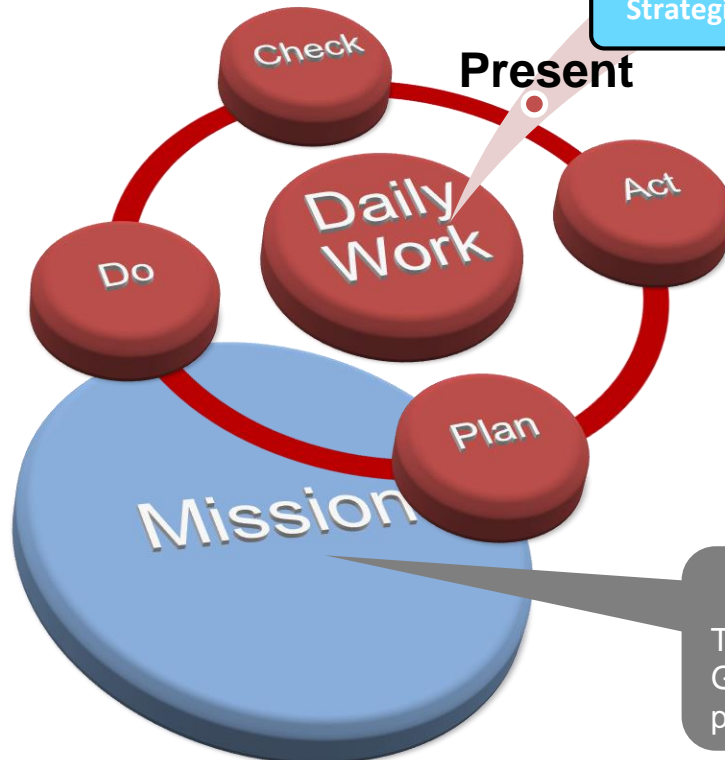

Quality Objectives

QO1. To strengthen and improve MTS QMS by process reformation with ISO 9001:2015

QO2. No major failure by engineering improvement with process basis, planning, action, monitoring, analysis, evaluation and feedback

QO3. Expansion of work scope for current engineering capacity

QO4. To strengthen and improve human resource development process for alignment of work processes (improving skills and knowledge of engineering)

QO5. No incident for environment, safety and security issue

QO6. Effective risk management

Mission

To provide the best engineering output continuously for the PJs of MHI Group, such as EPC PJ and Manufacturing PJ, with everybody's participation in the detailed engineering and field service
